

Ambassador Highlight

The ADSBS is excited to highlight the ambassador program through an ambassador highlight. One of these young leaders will be highlighted each month on the web and a few in each Dorper Report.

Hutsyn Hohertz

Age: 16

Hometown: Zephyr, Texas

School: Early High School

Hutsyn Hohertz is an avid livestock showman. She is the daughter of Harlan and Lori Hohertz. She is currently a junior in high school where she is active in her FFA chapter and is serving as treasurer for the second term. She is a member of the livestock, wool, and forage judging teams, as well as the quiz, public relations, and radio teams.

Hohertz has been showing competitively all her life. She shows sheep across the state of Texas and the nation. "I am passionate about both the Dorepr and White Dorper breeds," Hohertz said; "however, I gravitate to the whites as I find them more docile."

Hohertz is proud of the animals that her family has produced. "My family has raised several national champions in the past, including the 2025 National Champion Ram at Ft. Worth," she said.

Her passion doesn't stop in the ring, though. Hutsyn is seen around the show rings helping other youth show their sheep. This is one of the roles of an ambassador that Hutsyn is proud of helping with.

The ambassador program allows students to combine their many skills. While helping with show activities, these ambassadors are learning life-long skills, such as leadership and team dynamics, as well as event organization and execution. These youth members assist at youth and open shows across the United States by helping with gate check-in, taking photos in or around the shows, handing out ribbons in the ring, serving as a ring steward and assisting with other various youth functions. They may be called upon to help with other responsibilities that may pop up at shows and events.

Hohertz plans to finish high school and become a pharmaceutical veterinarian. Congratulations, Hutsyn, on being accepted into the ADSBS Ambassador Program for 2025-2026.
