This has been a very difficult spring for our members throughout the country. Some have had to deal with a lot of rain, flooding and tornadoes while others are not getting the moisture needed for their pastures and some even had cold temps and snow in late spring. Hopefully the summer will not be as tough.

I have noticed that there have been conversations on social media about having increased education to help with the selection of breeding stock. I feel that there is a misunderstanding about the junior and senior breeders’ courses that we have had at Duncan, Oklahoma the last few years. These are not judging courses—they are there to educate breeders on the breed standards and what kind of animals should be selected regarding breed type and animals that are structurally sound. The board has also felt that there needs to be more education and has made funds available for clubs in the regions to use for these kinds of educational programs and to promote our breed. It is somewhat disappointing that there has been very little participation in this program over the last couple of years. The board would greatly appreciate any ideas and assistance from our regional clubs and membership regarding educational programs.

The Duncan show and sale and the Dorper course had some issues, however the events were still a success and the board along with Doug had a discussion regarding the course, show and sale and we are working on ideas to correct some of the issues we experienced.

On May 18th we had the first Sunflower Classic Sale in Hutchison Kansas. The sale went well. The animals that sold were registered rams and ewes up to 3-years-old, as well as commercial ewes. The feedback from consigners and buyers was positive. We also tried a computer program for clerking sales and checking out sale animals after the sale. The program worked well and saved a lot of time with paper work during sign up and checkout. I would like to thank all the consigners, members of the Mid America Dorper Breeders Club and Ronda for all their hard work to make this event run smoothly.

The Southern States Sale in Cookeville, Tennessee is coming up in a few weeks and we have a good number of sheep entered for this event.

Let’s work together and keep the Dorper breed growing strong.
BRANDWEIN DORPER
Leading the way at the Western States Dorper Sale!

DEARY CREEK DORPERS
Australian Dorper Embryo Lambs

Our 4 yearling rams won 1st, 3rd, 5th and 6th Place in a class of 30 rams!

GRAND CHAMPION DORPER RAM
We retained his Type 5 full brother

Congratulations to Brean and Shawn Epp on the purchase of 5 Month fullblood ram!

Recently a potential buyer of a few ewe lambs asked if I would e-mail him pictures of our registered full blood Dorper flock, as he wanted to see the type of ewes we raise, i.e. Hair-coat, conformation, uniformity, etc., before he would make his purchase. I e-mailed him back several pictures of our ewes, some with lambs and some without. I no sooner hit the send button, and I received a phone call from the gentlemen wanting to know why our full blood Dorper ewe flock had solid black, solid white, and “pinto” colored sheep. It set me back a minute as I truly believe he was insinuating I was trying to deceive him on the purity of our ewes. After explaining our reasoning, I felt there was still some question and confusion in his voice but left it at that. Later, thinking back on our conversation I recalled this very question was brought up several years ago and made me realize many people may not know the origin or reasoning for the practice of placing black sheep in a flock.

As many of you know we graze our sheep during the summer months in the Archuleta Basin of southern Colorado, fourteen miles north of Chama, New Mexico. The elevation ranges from approximately 8,000 to 12,000 feet with heavy timber, open meadows, deep canyons and rocky steep slopes. We try and have the sheep on the mountain by June 1st every year, but this
depends on the amount of snow pack and severity of the runoff. They are then shipped back home in early October. This four-month time frame provides exceptional nutrition, preparing them for the coming winter and lambing season. They go straight from the mountain to our hayfields with no grain supplementation or conditioning feeds.

The first year we started this endeavor I was incredibly naive on how this sheep herding thing worked. Gung Ho, and ready for my new adventure, I arrived with my 30’ fifth wheel, a pickup with NO four-wheel drive, and a flock of approximately 100 head of registered pasture raised Dorper ewes. Several skeptics informed us we were insane for taking our registered flock up to this secluded rough and dangerous place, with probable 32-degree night temps in mid-August, a death loss of about 10% from predators alone, and finally, a hair sheep from South Africa in these mountains, was unheard of.

My brother-in-law Brian Quinlan and his family grazed three thousand head of wool sheep in these mountains for decades before switching to cattle in 1981. Brian has been a great help with his stories and advice on how they had managed and handled such large flocks in this timbered rough country. One of the stories was how his grandpa and dad always had one black sheep or “marker sheep” to approximately every hundred head of ewes. By counting the black sheep in the flock, the herders knew if they had left sheep in the timber or were missing a large amount of sheep that had wandered off from the main flock. I had always heard the cliché “Black Sheep of the Family” but never connected it with or thought it had a real purpose in the shepherding world.

So, our first year on the mountain I borrowed three little solid black orphan lambs from a friend and gave it a try. On many occasions it proved true and helped tremendously by counting the black sheep. If one was missing, sure enough, I would find it and several other ewes off grazing completely oblivious to where the main flock had traveled. Another old practice is to put bells on the
lead ewes and the guardian dogs. The sound of the bells can be heard from a substantial distance giving me a general direction of where to look for the wanderers. An additional benefit to this I’ve found is predators don’t like the sound of the bells and keep as far away as possible when they hear us traipsing through the woods. Again, an old cliché “Saved by the Bell”.

Through the years it has become harder to find solid black lambs for our “marker sheep” and we have now resorted to using tail sheep and “pinto” sheep (Katahdin X Dorper cross). It’s a little more difficult to pick them out of the flock, but they serve their purpose just the same. Our flock to date consists of one “marker sheep” for every twenty head of ewes.

As time has passed, months on the mountain have turned into years, and I learn something new every season. I have learned do NOT take a 30’ fifth wheel unless you want; bent, non-operating landing gears due to the steep uneven inclines and terrain; water tanks that don’t hold water due to bottoming out on large river rocks; and finally, dented and torn aluminum siding due to sheep using it as a provided backrub (it’s the perfect height). Never, NOT have a four wheel drive vehicle unless you don’t want to leave the mountain when it rains or snows. There have been other trials and tribulations, but most of my experiences have been pleasant ones. The most significant is knowing, pasture raised Dorper sheep from South Africa absolutely thrive on this high, rugged, cold and harsh mountain.

Living up on that mountain with the sheep and dogs during the summer months is my healing time and place. I count my blessings every day, can’t wait to get up there, and don’t ever want to leave...

None of this would be possible if it weren’t for my family and friends (partners in sheep)
Southern States
SHOW & SALE

Hyder-Burks Agricultural Center
Tennessee Tech University
Cookeville, Tennessee
(Located on Interstate 40, just an hour East of Nashville)

Friday, July 26
1:00 p.m. - Show

Wow! What a spring it has been! Between the washout weather in much of the country and the tremendous demand for Dorpers, it’s been an exciting and busy season. In this issue you will find results from many of the various sales where Dorpers and White Dorpers were offered. We provide this information to help you market your breeding stock with up-to-date market information.

The registry office has also been a busy place and our registrations, transfers and memberships are keeping pace with the record year we had in 2018. Last year we were #2 amongst all sheep breeds in registrations, and #1 in transfers! That’s proof of the level of activity in our breeds.

Our Dorper Breeder Courses and Judges School in Duncan in April were well attended. You’ll find a list of graduates in this issue. If you are on a show committee somewhere, try to encourage the committee to hire certified judges for your events so that Dorpers and White Dorpers are properly evaluated.

At the annual general membership meeting in Duncan we honored Travis Turley of Texas, who has resigned from the board, for his meritorious service to the membership. The board appointed Darroll Grant of Oregon to fill the board seat until Jan. 1. Nominations for the 2-year term, as well as three 3-year terms can be made on the form on the next page.

Just a heads up for 2020 Fort Worth exhibitors: We are eliminating the aged ram classes, as well as the 2019 Fall-born lamb classes, in favor of splitting the Spring ram lambs, 2018 Fall ewe lambs, and 2019 April & Later ewe lambs into two classes each. This will allow for greater participation in this regional show. Details in the premium book to be published in October.

I want to thank all of our breeders who have nominated ewe lambs for the youth futurity program. In 2018 we had a record set of lambs enrolled, and once the year ended in March we awarded $4,650 in total premium awards to 18 ADSBS youth members participating in the futurity. Congratulations to Kiersten Reed and Paige Livestock for winning the championship and to Kollen Furr and S Bar T Livestock for their reserve champion. Complete futurity placings are listed below. There is still plenty of time to buy a futurity lamb for the 2019-20 season at the Southern States Sale or Texas Hill Country Sale.

Total Premiums Awarded $4,650
Each ADSBS Member can nominate up to three individuals, whom you feel the American Dorper Sheep Breeders' society will benefit from having that person serve as a member of the ADSBS Board. You may mail your nominations to: ADSBS, P.O. Box 259, Hallsville, MO 65255-0259; fax: (573)696-2030; or email to: ADSBSoffice@centurytel.net. The deadline for nominations is September 1, 2018, and the ballot will be mailed to all ADSBS full members.

Paul Lewis has served two consecutive terms and is not eligible to run again. Freddy Rossouw and Freddie Richardson have served one term and are eligible to run again.

These three are three-year terms. There is also a two-year term to fill a vacancy currently filled by Darroll Grant, who is eligible to be elected.

- Two members of the same family or business cannot serve on the Board at one time.
- Members may not nominate themselves for the Board.
- An individual must have been a member of the ADSBS for at least one year to be eligible to serve on the Board.
- Board of Director responsibilities are described in the Members' Handbook.
- Election candidate information will be included in the Fall issue of The Dorper Report. Ballots will be mailed.

NOMINATIONS (Two-Year-Term)

ADSBS Member’s Signature

Membership Name
2019 MEMBER OF THE YEAR:
Darroll Grant

Darroll Grant is our 2019 Adult Member of the Year for the American Dorper Sheep Breeders Society (ADSBS). Darroll and Irene Grant of Aumsville, Oregon have been involved with White Dorpers since the early importations of the mid-90’s. He has served on the ADSBS Board in the past and returned to the board this year to fill a vacancy. He has recently served ADSBS as Treasurer, and Chair of the Research Committee. Darroll has always been willing to take on the required tasks for ADSBS to tackle the issues of the day. We cannot think of a more deserving “Member of the Year”. Congratulations Darroll!

2019 YOUTH MEMBER OF THE YEAR:
Conner Cowdrey

Conner Cowdrey of Millsap, Texas is the ADSBS Youth Member of the Year. Conner has been involved in showing Dorper sheep for approximately 5 years. Many of you have seen him at Dorper events, from sales to shows. He is always the first to lend a helping hand, whether it’s helping a younger child show their sheep, helping move sheep to and from the sale ring, paint branding or even auctioneering! Along with his involvement in Dorper sheep, he is also the committee chair for his local FFA Chapter and is the newly elected vice president of his district, along with being the vice president of Spring Creek 4-H Club in Parker County. He is involved in poultry and also makes and sells rope sheep show halters. Conner exemplifies the core of what the youth in our association are all about, well rounded individuals who help one another out where needed.
Greetings from the desk of the ADSBS Youth Coordinator

As I write this for our upcoming Dorper Report, I am watching our new lambs running and playing in the pasture, green from our recent rains in north Texas. I hope all our youth members and their families have had a successful lambing season as well.

Our Duncan youth activities went utterly awesome. You’ll find the complete results in this report from the youth show, production show and photo contest. We have some super talented photographers among our kids, and I loved seeing how unique each entry was. As with all photo contests, ADSBS uses these pictures in promotional materials and also on the Dorper Report, so keep watching for these great pictures. Our silent auction was a huge success, thank you to those families that donated and bid on items. A special congratulations goes to Connor Cowdrey, our Jr. ADSBS Member of the Year. Well deserved.

I want to thank everyone that hung with us thru a late night for our Youth and Production Show Friday evening. I have not seen this many entries in the youth show in recent memory. There was also lots of new faces and the generously sponsored awards were a big hit among the kids. The inaugural production class went off great and it seems to have created a big interest among our youth and their families.

I want to say a very, very special thank you to EGGS, John and Jackie Edwards, for their generous donation of a ewe lamb that was auctioned off before our national sale, with all proceeds going to the youth society. Also a special thank you to all the bidders and to Philip Glass for having the winning bid and Conner Cowdrey for serving as the auctioneer. I am constantly amazed and humbled at the generosity within our breed for these kids. Thank you, thank you!

The Midwest Jr Preview Show was a big success for our youth members who attended in Sedalia, Missouri. The All American Jr. Show will make its way back to Hutchinson, Kansas over July 4 and your youth society is planning some fun for its members and its families. We have a great array of members from the southern plains to the great lakes planning to attend, I look forward to meeting all our youth members. Our Southern States Show and Sale will be upcoming, which will have a full slate of youth activities as Duncan did, including the new production class. You can find that information in this Dorper Report. Please look into the new and revamped Futurity program, while attending sales and looking for your show string. What a great opportunity to earn a little back while showing your sheep!

Look for information coming soon also on a society wide t-shirt design contest for our youth members. By this printing the new American Dorper Youth Breeders Society Facebook page will be up and running, this will help get information out to our youth members as well.

One small note, in case you see on social media or via my email, I recently got married and thus my last name has changed. As always. I am at your disposal. Call, text or email with your questions, comments, concerns, etc.

National Reserve Champion White Dorper Ewe, bred by Riverwood Farms, Ohio and purchased by S Bar T Livestock, Texas.

www.dorper.org
We want to thank the following folks, who have played an integral part in our Dorper operation and recognize them for choosing our genetics.

Our National Champion Dorper Ram, pictured with the Australian and South African Judges and my friend Phil Freilich (left) holding the banners and the trophy.

Fancy Farm Dorpers purchased this ram from us, a 1777 Hanna son.

Again, thank you for your confidence in KY Proud Dorpers.

Phillip Padgett Elizabethtown, Kentucky. He purchased the National Champion Dorper Ram from us. He is a long time Dorper Breeder at Kentucky Grassland Dorpers and we appreciate his purchase of the champion. Dr. Padgett also purchased several high placing yearling ewes that should generate some interesting offspring when mated to our champion ram.

Our other yearling entry was 5th in the youngest yearling class and sold to Patoka Valley Sheep in Princeton, Indiana. I appreciated him passing along comments on our two rams that were made by Ron Gunther the long time herdsman at Ohio State University and he helped established the Dorper flock while at Riverwood Farm. Mr. Gunther picked my two rams as the best Dorper rams in the barn prior to the show and his selections were confirmed by the selection as champion by the Australian and South African judges. Best wishes to our ram buyers at Duncan.

Thanks to our friend David Freds of Walnut Ridge Farm in Lafayette, Indiana for his purchases. These ewes were 3rd and 4th in the youngest yearling ewe class and were about six months younger than the ewes in the oldest class. David purchased a Hanna ram last year at Duncan with the same sire as our 1777 ram we are calling Generator. Good luck with those two ewes. They are Sparkplug daughters and should be a good mating with his Hanna ram.

Our other yearling entry was 5th in the youngest yearling class and sold to Patoka Valley Sheep in Princeton, Indiana. I appreciated him passing along comments on our two rams that were made by Ron Gunther the long time herdsman at Ohio State University and he helped established the Dorper flock while at Riverwood Farm. Mr. Gunther picked my two rams as the best Dorper rams in the barn prior to the show and his selections were confirmed by the selection as champion by the Australian and South African judges. Best wishes to our ram buyers at Duncan.

Thanks to our friend David Freds of Walnut Ridge Farm in Lafayette, Indiana for his purchases. These ewes were 3rd and 4th in the youngest yearling ewe class and were about six months younger than the ewes in the oldest class. David purchased a Hanna ram last year at Duncan with the same sire as our 1777 ram we are calling Generator. Good luck with those two ewes. They are Sparkplug daughters and should be a good mating with his Hanna ram.

Thanks to Russell Lee of Winder Georgia on the purchase of our pen of three yearling ewes. Good luck with the two ewes bred similar to our rams and the other ewe is out of our Hoss Hanna ram.

I would also like to thank some of the Dorper breeders who have purchased rams from me off the farm:

Jason Adams of Ferguson, North Carolina, a repeat customer, purchased “1825”, another Sparkplug son out of the reserve ewe from the Hill Country we purchased from Sharon Holman. We’re excited to see how this ram produces for Jason.

Thanks to Lonnie Blankenship, Ben Binkley and Greg Heath for purchases.

Also, a special thanks to Chad Wilson of Fancy Farm Dorpers in Fancy Farm, Kentucky, on the purchase of our top fall ram that he’s calling, Turbo. This ram is sired by our 1777 Hanna ram that was a class winner at Duncan in 2018 and out of a Sparkplug daughter that placed well at Duncan in 2018. We purchased this ewe to see if the ram would cross well on the Sparkplug daughters and we are so excited with the results. We have retained breeding rights to this ram and look forward to putting him on the 2018 crop of Sparkplug daughters we have retained. He is young and pictured in this ad.

Thanks to Candice and Johnathan Kough for riding to Duncan and assisting me all through the trip (fixing a flat on the trailer, just to mention a few things).
The 3rd annual Chisholm Trail Youth Dorper Futurity Sale and Youth event was a huge success with 84 total sheep entered as individual entries!

Marvin Ensor was our judge for the youth show and did an amazing job Friday evening with a special showmanship session for the youth. After the clinic the kids split into age categories.
groups and were judged by breeding and market showmanship. In addition to this, Jacoby Feeds was on hand to provide information on feeding, fitting and health concerns for both their breeding and market Dorper projects.

Saturday morning, we had a sheep production show. There were five entries in this show. These entries were judged based on a live show, a record book prepared by the student, as well as an interview.

**Winners included:**
- **Senior Production**: Champion-Kiersten Reed
- **Intermediate Production**: Champion-Kathryn Richter
- **Junior Production**: Champion-Alex Duenas, Reserve – Alfred McDaniel, 3rd place – Alfred McDaniel

The Futurity Ewe Sale was a great success again this year. There were eight lots sold in the sale for total sales of $9,750 (or an average of $1,219 per head). The high selling ewe was lot #9 consigned by S Bar T Livestock for $2,500.

Many of the futurity ewes were shown in the youth show following the auction. A huge thank you to Gabe Spikes for doing an amazing job with the auction again!

The association was able to give the youth amazing prizes for their participation at the event. Thank you to our generous sponsors. Prizes included 13 belt buckles (showmanship, production and premier exhibitor), as well as banners to all grand and reserve champions; RTIC coolers, cups, blankets and water bottles for the group classes and halters to all showmanship participants.

**Show Report**
- 7 Dorper Exhibitors - 12 head
- 19 White Dorper Exhibitors - 72 head

**Youth Dorper Show**
- Spring Rams: 1. Avery Walton, 2. Alex Duenas
- Fall Rams: 1. Maggie Spikes, 2. Bella Duenas
- Aged Rams: 1. Avery Walton
- Champion Dorper Ram: Avery Walton
Reserve Champion Dorper Ram: Avery Walton
Spring Ewes: 1. Madison Galletti
Late Fall Ewes: 1. Maggie Spikes
Early Fall Ewes: 1. Avery Walton
Yearling Ewes: 1. Heston Hohenberger, 2. Claire Martin,
3. Maggie Spikes, 4. Alex Duenas
Ages Ewes: 1. Avery Walton
**Champion Dorper Ewe:** Heston Hohenberger
**Reserve Champion Dorper Ewe:** Avery Walton
Pair of Dorper Rams: 1. Avery Walton
Premier Dorper Exhibitor: Avery Walton

**Youth White Dorper Show**
Winter Rams: 1. Maggie Spikes, 2. Alfred McDaniel
**Champion White Dorper Ram:** Alfred McDaniel
**Reserve Champion White Dorper Ram:** Maggie Spikes
**Champion White Dorper Ewe:** Alfred McDaniel
**Reserve Champion White Dorper Ewe:** Heston Hohenberger
Premier White Dorper Exhibitor: Alfred McDaniel

**Youth Production Show**
Senior Production: 1. Kiersten Reed
Intermediate Production: 1. Kathryn Richter

**Showmanship Clinic**
**Breeding Showmanship**
PeeWee (5-7): Champion - Claire Martin, Reserve – Kristopher Richter
Junior (8-11): Champion – Heston Hohenberger, Reserve – Chloe Martin
Intermediate (12-14): Champion – Alyssa Foust, Reserve – Alyssa Whitehead
Senior (15+): Champion – Madison Galletti, Reserve – Ashley Arrendando

**Market Showmanship**
PeeWee (5-7): Champion – Claire Martin, Reserve – Sawyer Townley
Junior (8-11): Champion – Chloe Martin, Reserve – Heston Hohenberger
Intermediate (12-14): Champion – Alyssa Whitehead, Reserve – Alyssa Foust
Senior (15+): Champion – Bobbijo Fesperman, Reserve – Maggie Spikes

"The Dorper Report"
Advancing Ruminant Production
Enhancing Ruminant Nutrition

“LESS FEED, NO WASTE... BETTER RESULTS

- CONTROL OVER THE RATION IS CRUCIAL FOR MAXIMIZING YOUR PROFIT
- INCREASE YOUR STOCKING RATE WHEN PASTURE IS LACKING
- ACHIEVE HIGHER GROWTH RATES FROM QUALITY PASTURES
- REDUCE YOUR FEED COSTS
- REDUCE FEED TIME
- REDUCE FEED WASTE

Our grain feeders are engineered significantly different to any other stock feeder on the market. The Advantage Feeders 3-way restriction system is the most precise ration control method commercially available today.

Advantage Feeders grain feeders have multiple adjustment setting options. These include, Ad-lib Feeding, Controlled Feeding and Creep Feeding. The 3-way restriction system uses an Upper Adjuster, Lower Adjuster and Adjuster Guard to control the height, width and depth of where the feed sits.

When our restriction system is set in a limiting position, the animal’s tongue can only touch a few grains or pellets with each lick. The animal accesses the feed using saliva to stick the feed to its tongue and bring it into its mouth for consumption. After approximately FIVE minutes of licking, the animal’s tongue becomes dry and it can no longer access the feed.

Depending on the environment, stock often come to the feeder 6-8 times/day. This frequency of visits creates a system of providing their supplement in little and often amounts. The design of the Creep Panel allows both ewes and lambs to use the grain feeder at the same time and have been specifically designed to prevent stock manipulation.

These features and options are all designed to get you the quickest return on your investment and help to make more profit.

Traditional supplement feed methods are expensive. Labor and high amounts of waste make the task frustrating for producers. Advantage Feeders grain feeders, eliminate excess waste. Depending on the setting, our grain feeders are only required to be filled every 30 days, saving you valuable time! There is NO waste, regardless of what you fill your grain feeders with, be it a pelleted or textured ration.

Rest assured, what goes in is going to be consumed by your stock.

Two rams. Similar in most every measure; age, size, weight and both meet the standards for stud quality; which do you choose? Easy choice, right? If both look equal - it makes no difference and comes down to the eye of the master choosing the one that he/she feels will improve the flock. Maybe the cheaper one.

Selecting a ram to improve your flock begins with the criteria established by the South Africans who developed the breed. Whether your goal is breeding animals to sell as registered sheep or producing lambs for commercial meat production, by following the SA standard for selecting breeding stock you are improving the breed and its production capabilities designed to deliver a superior carcass. The ideal herd sire needs to have quantifiable traits which can be passed onto his progeny and should be well suited for production. After evaluating both rams you determine they both meet the standards from the outside.

What about the parts you cannot readily see? The outer packaging of a Dorper gives you a fairly decent idea of the carcass quality. But, how often are we, as breeders, getting feedback on what our lambs look like at processing time? If you process your own lambs or send to them to a processor you may have a good idea of what your sheep look like from the inside. The most basic metric is the amount of lamb returned to you in the form of packaged lamb. I queried several breeders and most had a ball-park number of pounds they expect to be returned from the processor. None could quote an estimate of the number of pounds they receive of the more desirable and profitable cuts; specifically, the loin chops (loin eye) and rib chops (rack). There is value to the producer in knowing which lambs have larger loins and even more in knowing which sires produce those lambs.

Carcass traits, overall, are moderately heritable - between .35-.50. And loin eye area is moderately highly heritable and positively correlated with percent retail product, with a heritability of .40-.60. Our Dorper sheep produce an outstanding carcass if we follow the breed standards and manage them well. That is the good news. The bad news is that unless you track and record the size of the loins coming back from the processor you don’t really know which rams are producing lambs with bigger loin eyes. Larger loin eyes mean more pounds of high value meat cuts. Identifying rams that can increase the size of the loin eye can help drive you to higher
profits when direct marketing. Those who breed for larger loin eyes position themselves well for changes should the industry begin to provide premiums on positive carcass merits. As breeders of Dorpers, we can help drive the industry to recognize those positive traits and provide the loin size that customers expect.

The sheep industry, currently, does little to reward producers who produce a meaty lamb carcass with an optimal fat cover. Prices at market reflect one thing - live weight on the day of sale. Basing prices on carcass yields and value would favor Dorper breeders over many other breeds. As the industry grows in the United States, producers that can market and sell a better carcass will be positioned to take advantage of premiums paid for meeting or exceeding carcass criteria as is done in cattle and swine.

A second important metric to evaluate is back fat depth. There is an ideal thickness of back fat needed during hanging time after slaughter. Too much back fat and it is trimmed away as waste. Too little and the muscle begins to dry out during hanging and meat is lost to trim during packing. The optimal amount provides protection but doesn’t end up on the trim floor.

The future path to choosing a ram or ewes to help increase the loin eye and keep back fat depths in a target range is to measure those metrics with ultrasound. In 2014, the Board of Directors of the National Sheep Improvement Program (NSIP) approved Objectives and Standards of Certification for use in collection of Loin Eye Depth (PEMD) and Back Fat Depth (PFAT) measured via ultrasound as performance criteria in genetic selection. Certified scanners use ultrasound to measure the depth of the loin eye between the 12th and 13th rib and the depth of back fat directly above the loin eye at that same location. To become a certified scanner for NSIP requires training and the use of specific makes and models of ultrasound machines. Only a currently certified NSIP scanner using the correct machine can provide a shepherd with data for input into the NSIP database for use in EBVs. But, that is not to say that the process of determining the animals in your flock that are likely to pass down the trait of larger loins and the correct amount of back fat is only for NSIP use. Dorper breeders should consider using this technology to find sheep within their flock that will add a genetic component to increasing the loin eye depth.

To answer the question of which ram to choose. Ram B is superior to Ram A due to larger Loin Eye Area and an appropriate fat cover for processing. The higher measured Loin Eye Depth (LED) of Ram B calculates to a Loin Eye Area (LEA) of 200% of Ram A's loin (2.97 sq in/1.48 sq in). Ram A carries more fat and would be considered a USDA Yield Grade of 5 vs. Ram B's yield grade of 2. Ram B has double the amount of high value cuts.

If Ram B is your herd sire for market lambs, multiply the increase in value by the number of offspring that he passes his carcass traits to. If your market it selling breeding stock, value is demonstrated to buyers with proven LED and LEA data.

Ultrasound alone should not be used as the sole determinant when selecting stock but be used as an integrated tool along with sound evaluation of the sheep using the standards as described in Dorpers into the New Century. When it comes to evaluating rams and ewes to purchase or deciding who stays in our flocks and who goes, ultrasound is another tool for selecting and evaluating Dorpers.

For more info on NSIP Ultrasound Scanning Requirements, Certifications or to find a scanning class visit http://nsip.org/nsip-member-services/us-cert-ultrasound-scanners/

Photos and graphic reprinted with permission from NSIP Sheep Carcass Ultrasound Training Manual. Part 2 in this series will cover using Ultrasound to better manage feed requirements of pregnant ewes.
It’s the friends we meet along the way who help us appreciate the journey.

Western States Dorper Association Show and Sale

The Western States Dorper Association (WDSA) Show and Sale on May 18-19, 2019 in Modesto, California had 104 breed-quality sheep sell. Raymond Read, certified inspector and judge from South Africa judged the breeding classes; and Wesley Patton, certified Dorper judge from Orland, California judged the youth showmanship and market classes. Both judges were highly regarded in-person and in post-survey results. Read also provided a well-attended and interactive seminar on the Dorper breed standard and was pleased to see the level of quality in the animals presented.

WDSA partnered with Willoughby sales, which brought improved online bidding and online streaming of the sale, as well as increased exposure. Youth activities were expanded and included a full youth breeding show, a Dorper market lamb jackpot and a showmanship show. It was very exciting to see the enthusiasm in this growing segment of our association! The Ewe Lamb Raffle, with ewes generously donated by Hijo Dorpers and Central California Dorpers, was a huge success, raising over $2,560 for our youth programs. Rhys Ludlow and Justus Emsoff were each awarded vouchers for their winning essays in our Youth Breeder Voucher.
contest. There were also wonderful items donated to the raffle as well. Participants enjoyed a delicious Mexican dinner at the social following the show on Saturday, the 18th, and consignors and bidders alike enjoyed a lunch of Dorper tacos on sale day, Sunday, the 19th. Judge Read, provided comments on each sheep as it entered the sale ring. Overall, it was a great event that continues to get better every year!

Total sold: 104 head

Average Rams: $1,200  (31 Dorper, 13 White Dorper)
Average Ewes: $943  (38 Dorper, 22 White Dorper)

Dorper Grand Champion Ram – sold by Jeri Geblin, Brandwein Dorper, $3,500, purchased by Jonna Sandoval, Bloomfield, New Mexico.
Dorper Reserve Champion Ram – sold by Rolando Salinas, Salinas Ranch, $2,700, purchased by Cozzi Brothers Livestock, Dos Palos, California.
Dorper Reserve Champion Ewe – sold by Linda Franklin, Central California, $2,000, purchased by Georgia May, Camp Verde, Arizona.
White Dorper Grand Champion Ram - "Prince M363" sold by Bill and Diane Moy, Willow Creek Ranch, $6,600, purchased by David Womack, Grass Valley, California.
White Dorper Reserve Champion Fall Ram – sold by Bill and Diane Moy, Willow Creek Ranch, $1,900, purchased by Travis Blackburn, Axtell, Utah.
White Dorper Grand Champion Spring Ewe – sold by Bill and Diane Moy, Willow Creek Ranch, $3,800, purchased by Michael Duenas, Red Oak, Texas.
White Dorper Reserve Champion Ewe – sold by Bill and Diane Moy, Willow Creek Ranch, $2,900, purchased by David Whitaker, Lascassas, Tennessee.
Grand Champion: Pen of Three Fullblood Ewes – sold by Jesus Zermeno, Zermeno Ranch, $2,100, purchased by Kerry Paul, Albany, Missouri.

The Dorper Report
www.dorper.org
Riverwood Farms Production Sale

Riverwood Farms of Ohio hosted their Dorper and White Dorper Production Sale at the farm in Ohio in May, with guest consignors Dry Creek Dorpers and East Star Livestock. There were 62 registered buyers and from 19 states, as the 74 head averaged $1,274.00.

The top price of the day was $5,000 on a Dorper yearling ram selling to Manger Farms of Ohio. Hannah Rutledge of Ohio paid $2,250 for a Fall ram lamb, and Jenna McHenry of Illinois paid $1,800 for another. The top older ram sold for $1,400 to Highloft Farm of Massachusetts.

White Dorper rams were topped at $3,250 with the Eaststar yearling selling to Taylor Binkley of Tennessee, followed by $3,000 on a yearling going to Brier Day of Missouri, and at $2,900 with a Fall ram lamb going to Missouri Dorpers. Greene Acres Dorpers of Indiana got a $1,900 yearling, while Jeff Watts & Ray Forsythe of Texas got an older ram at $1,600.

Dorper yearling ewes sold hot and steady, with a $2,000 ewe going to Justin and Jennifer Ransom of Texas, and Mace Lambert of Missouri and Justin Smithey of Georgia each getting $1,800 ewes. Kincaid Dorpers of Indiana took their choice at $1,750. Meyer Lambert bought a $1,900 lamb, followed by Willowcreek Farm of Michigan at $1,800.

White Dorper yearling ewes were topped by a $3,250 ewe going to Eaststar Livestock, who also took a $3,000 ewe. S Bar T Livestock of Texas bought a yearling at $2,800 and a Fall ewe lamb at $2,600. Brier Day of Missouri took the top Fall ewe lamb at $2,850, plus an Eaststar lamb at $2,400.

The Ohio Dorper Showcase Sale was held in Eaton, Ohio in conjunction with 14 other breeds, with great results. The 21 Dorper rams and ewes averaged $909 and the four White Dorpers averaged $1,025.

Champion Dorper Ram was a January lamb from Kincaid Dorpers that sold for $900 to Jessica Jean Larrick. The reserve champion yearling brought $450 as the Willowcreek Farm ram sold to KMP Farm of West Virginia. High selling ram was a fall lamb from Manger Farms going to Victoria Robinson of New Hampshire at $1,800. Lobdell Dorpers sent a $900 Fall ram to Trent Robbins of New York.

Champion Dorper Ewe from Lobdell Dorpers topped the breed at $3,400 to Rusty Lee of Georgia. Riverwood Farms sold the reserve champion January ewe lamb at $1,200 to Trent Robbins of New York. Three fall ewe lambs hit the $900 mark: all from Windy Hollow Farms, with one going to Sundown Farm of North Carolina, and a pair to Cozy Country Farm of West Virginia.

Champion White Dorper Ram from Riverwood brought $400 from Missouri Dorpers of Missouri, while the reserve ram from Eaststar Livestock brought $500 from Calvin Larson of Wisconsin. Eaststar’s champion ewe brought $1,600 from Day Livestock of Missouri, and Riverwood’s reserve champion brought the same price from Samantha Burton of Texas.
The Board of Directors of the American Dorper Sheep Breeders Society held a conference call on March 20, 2019. The meeting was called to order at 7:03 p.m. CDT by President Freddy Rossouw. Also participating were Ron Waldron, Robin Rau, Freddie Richardson, Lauri Celella, Wes Glass, Alan McAnelly, and Paul Lewis. Also on the call were Treasurer Darroll Grant, Registrar Ronda Seversen, Executive Secretary Doug Gillespie and Youth Coordinator Sarah Rogers.

Minutes of the February 11, 2019 conference call were approved on motion of Waldron, seconded by Celella, and VOTED.

Treasurer Grant discussed the financial report through February. Registry numbers are consistent with 2018. January and February are deficit months with expenses exceeding income, but numbers will pick up considerably in March.

Gillespie reported on the successful regional show at Ft. Worth in January, the recent Spring issue of The Dorper Report, and upcoming events in Duncan.

Rossouw gave his President’s Report. Travis Turley has resigned from the board. By motion of Glass, seconded by Rau, Grant was nominated to fill the vacancy until the next election. VOTED.

Rossouw reported that all background checks were completed, with no difficulties.

**Committee Reports:**

**FINANCIAL COMMITTEE** – Rossouw reported on a web-based system from Landmark Bank that would allow members to renew membership online, purchase items, pay fees, and pay for sale sheep online. After discussion, Lewis moved and Richardson seconded to adopt the program. VOTED.

**YOUTH COMMITTEE** – Richardson discussed the need to educate youth and judges against excessive bracing of sheep in show ring. After discussion, moved by Lewis, seconded by McAnelly to highly recommend that Dorpers be shown in a natural stance. VOTED.

**EDUCATION COMMITTEE** – Lewis and Celella have been exploring producing some videos with Reed Redden. It was suggested that ADSBS Facebook group be deleted because people are using it to advertise. Gillespie reported that we still had room for more Dorper Course participants. Rossouw reported that Raymond Read would be doing 11 inspection visits after Duncan, and Ashley Phillips would be doing 12 visits.

**MARKETING COMMITTEE** – Rau had distributed the attached report. She requested that lamb marketing information be included in the next email blast. Also discussed was the need to publish bios for speakers and judges at ADSBS events.

**COMMERCIAL COMMITTEE** – McAnelly discussed the carcass evaluation program being developed by Wade Littlefield, to be done at the Chickasha, Oklahoma processing facility. Rossouw indicated his preliminary plans to develop a slaughter plant for processing Dorper lamb. Board instructed Gillespie to draft a letter of support.

**SHOW & SALE COMMITTEE** – Waldron reported on the NAILE meeting. He is busy recruiting volunteers for Duncan for ringmen, paint crew, sifting committee, etc. It was decided that at the Duncan show,
culls would be sifted, top 10 in each class would be placed, and remainder would be random draw. With 700 head consigned, there was discussion of the schedule of events at Duncan. By motion of Ron Waldron, seconded by Alan McAnelly, it was VOTED to change the schedule so the annual general meeting would be breakfast on Friday, show starting at 10 a.m., followed by Youth Show on Friday afternoon/evening. The sale would begin at 10 a.m. Saturday.

Eric Bruns was nominated to judge Cookeville. Brad Roeder and Shawn Ramsay were nominated for 2020 Ft. Worth. All were approved.

Rossouw updated the board on plans for the Sunflower Classic Sale in May. He has secured a veterinarian for $75 per hour.

In other business, Grant and Conner Cowdrey were selected for the 2019 “Member of the Year” recognition at annual mee4ting.

Recruiting items for the youth raffle at Duncan was discussed, as well as a possible 50-50 raffle. Rossouw mentioned the praise for Seversen’s office operations that has been received.

Motion by Glass, seconded by Lewis, to adjourn at 1 p.m. CDT. VOTED.

Respectfully Submitted,

Douglas P Gillespie
Executive Secretary
Minutes of Annual General Membership Meeting – April 19, 2019 – Duncan, OK

The Annual General Membership meeting of the American Dorper Sheep Breeders Society (ADSBS) was held on Friday, April 19, 2019 at the Stephens County Fair & Expo Center in Duncan, Oklahoma. The meeting was called to order at 7:20 a.m. by President Freddy Rossouw with approximately 150 people in attendance.

Darroll Grant offered a blessing. South African guest Raymond Read and Wicus Cronje of Australia offered greetings and thoughts on Dorpers and White Dorpers in America. Door prizes were drawn and presented.

Rossouw introduced the board members and staff present. Executive Secretary Douglas Gillespie presented the minutes of the 2018 annual meeting, which were accepted as read. Treasurer Grant summarized the financials, which were also accepted as presented.

Lauri Celella reported for the Education Committee on the Dorper Courses, and preliminary plans to produce several webinars for our membership.

Ron Waldron reported for the Show & Sale Committee with general discussion of the sales in Duncan, Hutchinson, Cookeville and Louisville.

Freddie Richardson and Youth Coordinator Sarah Towery reported on Youth Programs, including the contests in Duncan and Cookeville, and the All-American in Kansas. Both sought out additional membership ideas to grow our youth involvement.

Grant presented for the Research Committee about Agnathia, as follows:

Agnathia is a developmental condition in which the jaws of a mammalian specie may be incomplete or totally missing at birth. This can be the result of a genetic recessive or environmental challenge during embryological development. Agnathia has been reported in both breeds of Dorper sheep in both the U.S. and Australia. The lower jaw is totally missing. Due to compromised airways death occurs shortly after delivery.

The ADSBS Board was made aware of the condition occurring in the U.S. Funding for a genomic research project was approved to determine the mutated gene responsible to facilitate a commercially available test for control of the condition. The chromosome has been identified and the search is being completed for the responsible gene. Once the gene is identified, a commercial test can be developed to facilitate testing. When a commercial test has been developed an email blast will be made to the membership with further information. The board of directors will have a decision at that time as to how this recessive will be controlled.

Pedigree searches may be of limited value due to inaccurate parentage. The American Angus Association has found that with genomic parentage testing 6-8% of the supplied parentages are incorrect. I would expect a higher rate in sheep due to multiple births and mismothering.

Some cattle breed associations publish a list of genomically identified carriers to facilitate searches for carriers. However, the commercial lab that will be developing the test only releases the results to the submitter of the DNA or to the current owner of the animal with a release from the breeder. Voluntary revelation of carriers, and elimination of carriers from the flock would facilitate carrier cleanup condition condition. searches.

Alan McAnelly discussed the ideas and role of the Commercial Committee in expanding the reach of our breeds.

Travis Turley was recognized for board service as a retiring director.

Member of the Year: Buckles were presented to Youth of the Year-Conner Cowdrey, and adult Member of the Year-Darroll Grant.

The meeting was adjourned at 8:30 a.m.

Respectfully Submitted,
Douglas P. Gillespie
Executive Secretary
The Board of Directors of the American Dorper Sheep Breeders Association met via conference call on May 2, 2019. Meeting was called to order at 7:04 p.m. by President Freddy Rossouw with all members participating.

The purpose of the meeting was a debriefing on the recently completed Dorper Courses and Mid-America Show & Sale in Duncan, Oklahoma.

DORPER COURSES: The following points were raised in regard to the Dorper Courses and related issues:
• Instructors should be available to students after hours
• Participants need feedback – what areas did they fail?
• Courses need to be lengthened by one day each to allow better understanding of evaluating animals

Action items:
Moved by Wes Glass, seconded by Ron Waldron and VOTED to certify Skip Anderson as an ADSBS Judge, resolving the error in scoring that occurred in Duncan.

Moved by Glass, seconded by Robin Rau, to send a letter of apology to judge candidates for not providing input on their efforts and inviting them back with financial assistance. VOTED. Glass will draft letter and circulate for approval.

Other suggestions:
• Initiate a two-judge system at ADSBS shows, so judges can gain experience working with a mentor judge.
• Rent a bus, and do the courses on the road, visiting several ranches to evaluate sheep.

It was decided to establish a committee to draft a recertification program, redesign the courses, and related matters. Committee will consist of Paul Lewis, Lauri Celella, Waldron, Glass and Doug Gillespie.

MID-AMERICA SHOW & SALE: The following suggestions were offered:
• Limit pens of three to three per consignor, unless you enter haltered individuals; then an additional pen for each two singles entered.
• More professional help in clerking, paint-branding, logistics and loadout and ringmen.
• Require scrapie tags on all baby lambs.
• ADSBS buy more sets of paint-brands.
• Noon deadline on Thursday for check-in.
• Drop January lamb classes. Divide yearling classes three ways by age.
• Draft a procedures letter for new consignors.
• Better organized load-out crew.
• Drop percentage sheep from being allowed in pens of three.
• When consignor has scratches within pens, consolidate remaining entries into pens of three.

Seversen and Gillespie will look into David Vanhuizen to develop sale management software.

Meeting was adjourned at 9:05 p.m..

Respectfully Submitted
Douglas P Gillespie
Executive Secretary
The American Dorper Sheep Breeders Society (ADSBS) Board of Directors met via conference call on Tuesday, June 11, 2019. Meeting was called to order at 7:05 p.m. CDT by President Freddy Rossouw. Participating board members were Ron Waldron, Robin Rau, Freddie Richardson, Alan McAnelly, Lauri Celella, Darroll Grant and Paul Lewis. Staff included Doug Gillespie, Ronda Seversen and Sarah Towery.

Minutes of the May 2 board meeting were approved as written. Grant gave an overview of the financials through May 31st. The Kansas Sale lost $2,300, which was less than expected for new sale. Suggestion of cutting DV Auction to save money. Dorper Course had a $26,000 loss, as expected. Some will be reimbursed from airlines and travel insurance. ADSBS could save expenses by taking Dorper Courses on the road, visiting several ranches by bus. After discussion, no actions taken, but financials were approved.

There was discussion of the Sunflower Classic Sale in Kansas. The Gavel Buddy software worked well for clerking. It was suggested to post a list of no sales immediately after sale so consignors could verify sales before departing.

Upcoming events at Southern States Dorper Show & Sale in Cookeville, Tennessee were discussed. We will have about 300 head of sale sheep, plus youth show entries. Mid-South club meeting next week to finalize volunteers, breakfast and other matters. Seversen offered a tutorial on Gavel Buddy prior to Cookeville for the clerks working that event.

There was discussion of funds for the Montana Lamb Jam, as Rossouw had received a call. Rau indicated that the Promotion Committee planned a reduced funding of the event with clear deliverables from the event. Thinking in the $500 to $1,000 range. There was general agreement that this was acceptable.

A question has arisen whether our staff should get separate email accounts for ADSBS work. After discussion, it was agreed that Towery would get a separate account, active after Cookeville, and that passwords would be kept at the ADSBS office for all staff email accounts, for emergency use.

The West Coast Dorper Association had requested access to ADSBS email blasts, and offered to pay for such use. After board discussion, it was decided to notify the club of several such opportunities during the year to submit content for scheduled email blasts, at no cost.

Rossouw raised the issue of non-ADSBS sale managers submitting transfers to the registrar, and the extra time and work that goes into processing. Mailing expenses are also not covered, because the sales are not paying the postage and handling fees. After considerable discussion it was decided not to change how these are handled, nor to change the fees involved.

The meeting was adjourned at 8:55 p.m. CDT.

Respectfully Submitted,

Douglas Gillespie
Executive Secretary
Dorphers Take Six Of Top Ten Houston Carcass Contest Placings

If there was ever a testimonial to the Dorper’s place in the sheep industry, here it is! Of the hundreds of market lambs exhibited at the prestigious Houston Livestock Show & Rodeo in March, 42 top placing individuals from live placings were measured in the carcass contest and Dorpers won six of the overall top ten placings! Over 50 percent of the lambs in other breeds were disqualified for excessive fat and three lambs were disqualified for having carcass weights exceeding 100 pounds; none of the Dorper lambs were disqualified. In fact, all six Dorper lambs that qualified for carcass evaluation placed in the final top ten. A Dorper lamb, tied with a Southdown lamb, also had the highest dressing percentage at 67.3. Live weights of the various lambs ranged from 107 pounds to 182 pounds.

Congratulations to Preslee Faris of Blanco FFA Chapter for the overall carcass champion, honor and Reagan Whitson of Bell County 4-H for the overall reserve carcass. The data tells the story (see charts on pages 49-50):

Congratulations to the following individuals for successfully completing the Judges School and Dorper Breeder Courses held at Duncan, Oklahoma in April.

2019 Dorper Course Graduates

Judge Certification
Skip Anderson, North Dakota
Roger High, Ohio
Senior Course
Jolene McAnelly, Texas
Harry Owens, Arizona
Cecil Campbell, Texas
Sunshine Conner, Georgia
Kerry Paul, Missouri
Freddy Rossouw, Kansas
Faith Fleetwood, Indiana
Nicolaas Vos, Kansas
Taunya Ruffin, Texas
Saundra Davenport, Texas
Jared Frieze, Missouri
Wade Littlefield, Texas
Roger High, OHio
Lane Hale, Texas
Clay Burson, Texas
Randy Pirtle, Oklahoma
Skip Anderson, North Dakota
JoAnn Harris, Tennessee
Danny Jones, Tennessee

Junior Course
Jared Freemyer, Missouri
Andrew Grimm, Texas
Conner Richardson, Virginia
Jill Richardson, Virginia
Jasper Glass, Texas
Will Craft, Louisiana
David Womack, California
William Evans, Arkansas
Donna Geeslin, Texas
Sammy Burton, Texas
Rose Fisk, Wyoming
Crystal Emsoff, California
Denise Timer, Pennsylvania
Ray Asencio, Texas
Jennifer Ransom, Arkansas
Ron Geeslin, Texas
Kristin Pronko, New York
Alexis Major, Arkansas
Victoria Major, Arkansas
Josh Gustafson, Iowa
William Phipps, Delaware
Cody Burton, Texas
The following persons have successfully completed judges training programs conducted under the direction of the American Dorper Sheep Breeders Society, and are therefore accredited Dorper and White Dorper judges. All certifications are designated at the pleasure of the ADSBS Board of Directors. **Denotes previous judging experience

For info: edie@mbarwwhitedorpers.com.

April 24-25, 2020 Mid-America Dorper Show & Sale, Stephens County Fair & Expo Center, Duncan, OK.
The on-line system is very user friendly and will help members expedite and validate new registrations. The following is a step by step guide to help you accurately record sheep.

You will need your Membership ID and a Password. Ronda Severson will provide you with a temporary password if you request one via email: ADSBS Office@centurytel.net. You will need to change the temporary password once you access the system.

The log in site is:
https://abri.une.edu.au/online/cgi-bin/i4.dll?1-usdorper&=10

You may also log in directly from the ADSBS webpage:
Sign on to: www.dorper.org
Select: Breeder Database (this will bring you to the Dorper Member Enquiry page)
Select: Online Transaction
You will then be prompted to "Dorper Messages", and you will get an Error Message, and a request to "SIGN ON".
And the following prompt will appear:
Once, you are connected you will be asked for your Authorization information, Member ID and Password.

American Dorper Sheep Breeders' Society
Signon

Authorisation Required

You must be current with your society dues in order to be able to log in. Please provide a Member I.D. and Password. Fields marked with an asterisk(*) are required, others are optional.

* Member I.D: [ ]
* Password: [ ]
To change your password, enter your Member I.D. and current password above and your new password below.
New Password: [ ]
New Password Validation: [ ]

Once, completed with all the animals you intend to register, simply go to the "View Batch Summary" and you will have an opportunity to view and or edit any registrations in your batch before final submission. Once you are satisfied with your submissions you will be prompted to pay for the registrations. Currently all payments must be processed thru PayPal. This is a very secure way to pay for transactions without sharing your personal information with vendors.

CORRECTLY SUBMITTED APPLICATIONS WILL BE PROCESSED AND PRINTED, AND MAILED TO YOU FROM THE ADSBS Registry Office within a few days. At the present time the system can only process new registration applications where you own both the sire and dam. Other work must be mailed in. We will continue to upgrade so that eventually the system will process transfers.
This space can be yours for $60 per year.
Reserve your ad through Dorpers@ymail.com
